Global Hunter Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the nine months ended November 30, 2012

(Presented in Canadian dollars – unaudited)

1. Nature of Operations and Going Concern

Global Hunter Corp. (the “Company”) is an exploration stage enterprise incorporated under the laws of British Columbia. The Company and its subsidiary are engaged in the acquisition and exploration of mineral properties located in Canada and Chile. The Company is listed on the Toronto Stock Exchange Venture (“TSX-V”) under the symbol BOB-V.

These condensed consolidated interim financial statements have been prepared on the assumption the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. At November 30, 2012, the Company had not advanced its exploration and evaluation assets to commercial production and is not able to finance day to day activities through operations. During the nine months ended November 30, 2012, the Company had net loss of \$1,642,646 and at November 30, 2012, had a working capital deficiency of \$4,243,637. Should the Company be unable to continue as a going concern, significant adjustments to asset values may be necessary. The ability of the Company to continue as a going concern is dependent upon the Company being able to raise sufficient financing to complete exploration and development activities, the discovery of economically recoverable reserves, and upon future profitable operations or proceeds from disposition of exploration and evaluation assets. The Company presently, has not yet determined whether its exploration and evaluation assets contain economically recoverable resources. Management intends to finance operating costs over the next twelve months with funds on hand and future private placements.

The head office, registered and principal address and records office of the Company are located at 502-535 Thurlow Street, Vancouver, British Columbia, Canada.

2. Significant accounting policies and basis of presentation

These condensed consolidated interim financial statements were authorized for issue on January 29, 2013 by the directors of the Company.

Statement of compliance

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting, using accounting policies consistent with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards (IASB) and interpretations of the International Reporting Interpretations Committee (IFRIC).

Basis of presentation

These condensed consolidated interim financial statements have been prepared using the same accounting policies and methods of their application as the most recent annual consolidated financial statements of the Company for the year ended February 29, 2012. These condensed consolidated interim financial statements have been prepared on an accrual basis and are based on historical costs, except for certain financial instruments which are measured at fair value. These condensed consolidated financial statements are presented in Canadian dollars, unless otherwise indicated.

Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its controlled entity. Details of controlled entity is as follows:

	Country of incorporation	Percentage owned	
		November 30, 2012	February 29, 2012
Global Hunter Chile Ltd.	Chile	100%	100%

Inter-company balances and transactions are eliminated on consolidation.

2. Significant accounting policies and basis of presentation (continued)

Significant accounting judgments, estimates and assumptions

The presentation of the Company's consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the determination of the useful lives of equipment, the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments and stock-based compensation and other equity-based payments, the recognition and valuation of provisions for restoration and environmental liabilities, and the recoverability and measurement of deferred tax assets and liabilities. Actual results may differ from those estimates and judgments.

Foreign and presentation currency

These condensed consolidated interim financial statements are presented in Canadian dollars which is the parent company and its subsidiary's functional and presentation currency. The functional currency of each entity is measured using the currency of the primary economic environment in which that entity operates.

3. Accounting standards issued but not yet effective

A number of standards, amendments to standards and interpretations are not yet effective as of November 30, 2012 and have not been applied in preparing these condensed consolidated interim financial statements. None of these are expected to have a material effect on the financial statements of the Company.

New standard IFRS 9 "Financial Instruments"

This new standard is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets.

The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2015.

New standard IFRS 10 "Consolidated Financial Statements"

This new standard will replace IAS 27 "Consolidated and Separate Financial Statements", and SIC-12 "Consolidation – Special Purpose Entities". Concurrent with IFRS 10, the IASB issued IFRS 11 "Joint Ventures"; IFRS 12 "Disclosures of Involvement with Other Entities"; IAS 27 "Separate Financial Statements", which has been amended for the issuance of IFRS 10 but retains the current guidance for separate financial statements; and IAS 28 "Investments in Associates and Joint Ventures", which has been amended for conforming changes based on the issuance of IFRS 10 and IFRS 11. IFRS 10 uses control as the single basis for consolidation, irrespective of the nature of the investee, eliminating the risks and rewards approach included in SIC-12, and requires continuous assessment of control over an investee. The above consolidation standards are effective for annual periods beginning on or after January 1, 2013.

New standard IFRS 11 "Joint Arrangements"

This new standard requires a venturer to classify its interest in a joint arrangement as a joint venture or joint operation. Joint ventures will be accounted for using the equity method of accounting whereas for a joint operation the venture will recognize its share of the assets, liabilities, revenue and expenses of the joint operation. Under existing IFRS, entities have the choice to proportionately consolidate or equity account for interests in joint ventures. IFRS 11 supersedes IAS 31, "Interests in Joint Ventures", and SIC-13, Jointly Controlled Entities-Non-monetary Contributions by Venturer. IFRS 11 is effective for annual period beginning on or after January 1, 2013.

Global Hunter Corp.

Notes to the Condensed Consolidated Interim Financial Statements

For the nine months ended November 30, 2012

(Presented in Canadian dollars – unaudited)

3. Accounting standards issued by not yet effective (continued)

New standard IFRS 12 “Disclosure of Interests in Other Entities”

This new standard establishes disclosure requirements for interests in other entities, such as joint arrangements, associates, special purpose vehicles and off balance sheet vehicles. The standard carries forward existing disclosures and also introduces significant additional disclosure requirements that address the nature of, and risks associated with, an entity's interests in other entities. IFRS 12 is effective for annual period beginning on or after January 1, 2013.

New standard IFRS 13 “Fair value measurement”

This new standard replaces the fair value measurement guidance currently included in various other IFRS standards with a single definition of fair value and extensive application guidance. IFRS 13 provides guidance on how to measure fair value and does not introduce new requirements for when fair value is required or permitted. It also establishes disclosure requirements to provide users of the financial statements with more information about fair value measurements. IFRS 13 is effective for annual periods beginning on or after January 1, 2013.

New interpretation IFRIC 20 “Stripping Costs in the Production Phase of a Surface Mine”

This new IFRIC clarifies when production stripping should lead to the recognition of an asset and how that asset should be measured, both initially and in subsequent periods. IFRIC 20 is effective for annual periods beginning on or after January 1, 2013.

- \$375,000 on or before January 20, 2008; amended to April 19, 2008 (incurred); and
- \$375,000 on or before January 20, 2009 (incurred).

Pursuant to an amendment dated February 19, 2007, the Company issued an additional 100,000 common shares and paid \$50,000 to delay the work commitment to June 30, 2007.

On August 17, 2009, the Company signed an amended agreement with the optionor whereby the Company agreed to issue 200,000 common shares of the Company (issued) and a cash payment of \$85,000 (paid) to satisfy an earlier agreement dated February 19, 2007, in which the Company had requested an extension of time to make certain work expenditures.

Further consideration includes the payment of advance royalties of \$30,000 per annum commencing November 30, 2008. The annual advance royalties were paid in December 2010 and 2011.

The Company may at any time purchase one third of the 3% NSR for \$1,000,000.

Total loans payable	3,659,047	2,892,262

- a) At November 30, 2012, the Company had a balance owing to Emerald Fortune Ltd. in the amount of \$7,245 (February 29, 2012 - \$7,245). The loan is unsecured, non-interest bearing and does not have a fixed term of repayment.
- b) On October 1, 2010, the Company received a \$2,500,000 loan ("Convertible Loan") to advance its Corona de Cobre project in Chile. The proceeds from the loan were used by the Company to fund project expenses and for general working capital purposes.

The loan has an eighteen month term and the loan principal will be convertible at the option of the lender in whole or in part into units ("Principal Units") of the Company until eighteen months from the date of the loan advance at the price of \$0.06 per Principal Unit. Each Principal Unit is comprised of one common share and one-half of a non-transferable warrant. Each whole warrant is exercisable to purchase one additional common share for \$0.10 at any time until eighteen months from the date of the loan advance. The loan bears interest at the rate of 12% per annum, payable on maturity, and accrued and unpaid interest will be convertible at the option of the lender in whole or in part into units ("Interest Units") of the Company until eighteen months from the date of the loan advance at the market price of the shares. Each Interest Unit will be comprised of one common share and one-half of a non-transferable warrant. Each whole warrant is exercisable to purchase one additional common share for 150% of the market price of the Company's shares at any time until eighteen months from the date of the loan advance. The loan principal and accrued interest is secured by a pledge of the shares of the Company's subsidiary, Global Hunter Chile Ltda., and may be repaid without penalty or bonus on 30-day notice. All shares issued on any conversion of loan principal or interest will be subject to a four month hold period from the date of advance of loan proceeds. A finder's fee equal to 6% of the loan proceeds was paid in cash.

On June 18, 2012, the Company entered into a first amending agreement and on September 19, 2012, entered into a second amending agreement, collectively being the amended convertible loan agreement to the convertible loan agreement dated October 1, 2010. The terms of repayment of the loan have been amended such that up to half of the principal and 100% of the accrued interest will be due and payable on January 31, 2013 if lender gives notice of the requirement of repayment by December 31, 2012. The remaining balance of the loan principle and accrued interest will become due and payable without demand on October 1, 2013. The conversion period of the loan principal in whole or in part into Principal Units has been amended and extended until October 1, 2015. The conversion price of the loan has been amended from \$0.06 to \$0.10 per Principal Unit. As consideration for the loan extension and new conversion price, the Company will issue the lender detachable warrants exercisable to purchase up to 20,833,333 shares at \$0.10 per share until the earlier of October 1, 2015 and the time of repayment of that portion of the principal in respect of which such detachable warrants would be issuable if such detachable warrants were a conversion warrant.

The Company received notice from the lender requiring payment of up to one-half of the Loan plus accrued interest by January 31, 2013. The Company is currently reviewing its options regarding payment of the loan obligation.

The loan is a compound financial instrument as it includes both liability and equity components. The Company determined the fair value of the liability component on the date of issue to be \$1,935,593. The fair value of the liability was determined by calculating the fair value of the future cash flows of the loan assuming a discount rate of 30%. The equity component was determined to be \$564,407 which is the residual of the proceeds less the

b) Issued share capital

At November 30, 2012, the Company had 280,761,137 issued and outstanding common shares (February 29, 2012 - 265,261,137).

See the Condensed Consolidated Interim Statements of Changes in Equity for a summary of changes in share capital and reserves for the nine months ended November 30, 2012.

Fiscal 2013

On July 3, 2012, the Company completed a non-brokered private placement of 15,500,000 units at the price of \$0.05 per unit for gross proceeds of \$775,000. Each unit will be comprised of one common share and one-half of one transferable share purchase warrant. Each whole warrant will entitle the holder to purchase one common share for a period of one year at the exercise price of \$0.10 until June 8, 2013. The Company paid finders' fees of \$64,000 in connection with the private placement, in accordance with TSX Venture Exchange Policy. All securities issued pursuant to the private placement will be subject to a four-month hold period from the closing date. The proceeds from the private placement will be used to finance exploration activities and for general corporate expenses.

Fiscal 2012

In April 2011, the Company completed a private placement of 33,000,000 units at \$0.10 per unit. Each unit is comprised of one common share and one-half of one common share purchase warrant. Each whole warrant will entitle the holder to purchase one common share for a period of one year at the exercise price of \$0.15 until October 6, 2012. The Company did not separately attribute a value to the warrants. The Company paid \$339,000 as finders' fees for this private placement.

During the period ended November 30, 2011, the Company received \$600,000 for exercise of 6,000,000 warrants at \$0.10 per share.

d) Stock Options

The Company has adopted an incentive stock option plan (the "Plan"). The Plan provides that the aggregate number of shares of the Company's capital stock issuable pursuant to options granted under the plan may not exceed ten percent of the issued and outstanding shares of the Company at the relevant time. Options granted under the Plan may have a maximum term of five years. The exercise price of options granted under the Plan will not be less than the discounted market price of the shares (defined as the last closing market price of the Company's shares immediately preceding the grant date, less the maximum discount permitted by TSX Venture Exchange Policy), or such other price as may be agreed to by the Company and accepted by the TSX Venture Exchange. Stock options granted to consultants providing investor relations activities under the Plan are subject to vesting restrictions such that one-quarter of the option shall vest on each of the date of grant and three, nine and twelve months after the date of grant.

The continuity for the Company's stock options for the nine months ended November 30, 2012 and for the year ended February 29, 2012 is as follows:

	November 30, 2012		February 29, 2012

16. Financial Instruments and Risk Management

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. The majority of cash is deposited in bank accounts held with major banks in Canada and Chile. As most of the Company's cash is held by two banks there is a concentration of credit risk. This risk is managed by using major banks that are high credit quality financial institutions as determined by rating agencies. The Company's secondary exposure to risk is on its sales tax receivables. This risk is minimal as receivables consist primarily of refundable government goods and services taxes.

The Company's concentration of credit risk and maximum exposure thereto is as follows:

	November 30, 2012	February 29, 2012
	- \$ -	- \$ -
Bank accounts – Canada	47,268	765,718
Bank accounts – Chile	152,542	179,823
	199,810	945,541

(b) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash and cash equivalents.

Historically, the Company's source of funding has been the issuance of equity securities for cash, primarily through private placements, loans and advances from related parties. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding, nor continued support from related parties by way of loans or advances.

The following is an analysis of the contractual maturities of the Company's non-derivative financial liabilities as at November 30, 2012:

(c) Market Risk

The significant market risks to which the Company is exposed are interest rate risk, currency risk and other price risk. These are discussed further below:

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk on its cash equivalents as these instruments have original maturities of three months or less and are therefore exposed to interest rate fluctuations on renewal.

Currency Risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company's Chilean subsidiary is exposed to currency risk as it incurs expenditures that are denominated in Chilean pesos and US dollars while its functional currency is the Canadian dollar. The Company does not hedge its exposure to fluctuations in foreign exchange rates. At November 30, 2012, one Canadian dollar was equal to 1.0064 US dollars and 484 Chilean Pesos.

As at November 30, 2012, the Company has financial instruments denominated in foreign currencies as below and is exposed to currency risk as follows:

	USD	Chilean Peso	Canadian dollar equivalent
Cash	747	73,508,856	152,548
Accounts payable and accrued liabilities	(169,509)	(12,762,467)	(195,864)
Net monetary assets	(168,762)	60,746,389	(43,317)

Based on the above net exposures, assuming all other variables remain constant, a 10% weakening or strengthening of the Canadian dollar against the US dollar and the Chilean Peso would result in an increase or decrease of approximately \$4,331 in the Company's reported loss in the period.

e) Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of its business. The capital structure of the Company consists of share and working capital.

There were no changes in the Company's approach to capital management during the period.

The Company is not subject to any externally imposed capital requirements.

f) Fair value

The fair value of the Company's financial assets and liabilities approximates the carrying amount.

16. Financial Instruments and Risk Management (continued)

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The following is an analysis of the Company's financial assets measured at fair value at November 30, 2012 and February 29, 2012:

	As at November 30, 2012		
	Level 1 -\$-	Level 2 -\$-	Level 3 -\$-
Cash and cash equivalents	199,810	-	-
Marketable securities	2,000	-	-

Cash and cash equivalents	945,541	-	-
Marketable securities	1,500	-	-
	947,041	-	-

17. Commitments

Operating leases commitments

At November 30, 2012, the Company had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

	November 30, 2012 -\$-
Within one year	85,000
Between two to five years	288,000
Total	373,000

Operating lease payments represent rentals payable by the Company for its office premises. Leases are negotiated for a term of five years.

19. Subsequent Events

On January 23, 2013, the Company completed a share consolidation of the Company's shares on the basis that each twenty common shares before consolidation be consolidated into one common share after consolidation, with any fractional shares resulting from such consolidation being converted into whole common shares without par value. The Company had an aggregate of 280,761,137 common shares outstanding prior to the share consolidation and giving effect to the consolidation, now has 14,038,058 shares outstanding.
